Reverend Fulton J. Sheen D.D. : Justice and Charity before purchasing it in order to gage whether or not it would be worth my time, and all praised Justice and Charity:

0 of 0 people found the following review helpful. Communists (and their knock-offs) begin with the principle of "Equality" and end in brutality in the name of doing good for the malignedBy Jacob PedersonWhen the French Revolution claimed to usurp the Church's teaching on social and economic issues, it left a small "back door" for the Church to return in it's slogan "Liberty, Equality, Fraternity". While Captialists begin with the principle of "Liberty"

and end in oligarchy and a need for justice, Communists (and their knock-offs) begin with the principle of "Equality" and end in brutality in the name of doing good for the maligned, needing charity. Bishop Sheen provides the Church's common-sense, common-good, and not-commonly-understood stance on economics by beginning with the principle of "Fraternity", and explains the principles of subsidiarity and solidarity with a piercing simplicity. I joke and say it's become my "little red book" or "manifesto" when it comes to politics! Tolle lege, you will not be disappointed! 0 of 0 people found the following review helpful. EVERYONE SHOULD READ! By mary IFulton Sheen was the best! This book gives you a very scholarly view of a difficult topic that though written in the 30's ...applies to today's misrepresentations. 0 of 0 people found the following review helpful. Five Stars By Customerwell done

Our country must be built upon a justice and charity in which our individual rights and privileges are conditioned by the service of the common good. The dominating influence of Capitalism and Communism over modern societies has eclipsed the Catholic Church's communication of her social and economic principles. Campaigns to win the affections of the faithful have persuaded many that Capitalism with its promise of unlimited freedom and praise for the accumulation of wealth is an authentic expression of Catholic social teaching and that the richness of the social tradition with its preferential option for the poor is driven by class-hatred, envy, and egalitarianism. Grounded in his expertise of the social doctrine of the Catholic Church, in *Justice and Charity*, Fulton J. Sheen explores how Capitalism's failure to submit to justice and Communism's rejection of Christian Charity can be corrected only by a revolution in the heart of men by means of encountering Jesus Christ. Back in print for the first time since its original publication, *Justice and Charity* is a thought-provoking exploration into the social tradition of the Catholic Church led by one of her finest voices.
