She had told me a little about the town, enough to intrigue me, and I wanted to know more. So, I bought this book. Unfortunately, the book was a big disappointment. It is a shallow, badly written, disjointed account of the author's visits to Lily Dale. It was difficult to believe the author is or was a journalist, because of the quality of the writing, rambling and almost incoherent, at

times. Nonetheless, the author is apparently an award winning journalist, having been the religion reporter for seventeen years for the Dallas Morning News, the same newspaper that said this book was "royally entertaining". Well, the reality is that it is anything but, though it does contain some nice vintage photographs. There is very little of substance, and it is far from entertaining. Downright boring would best describe it. 4 of 4 people found the following review helpful. Enjoyed it! By Laurie Irwin-Pinkley Definitely a fun read before you go there for a visit. Written by a journalist with a skeptic eye and an open mind which I see as a good balance when you are trying to explore and explain Spiritualism. 0 of 0 people found the following review helpful. I had been to Lilly Dale some years ago. ... By G. A. Smith I had been to Lilly Dale some years ago . It was off season. It is a reporter who wrote this book. You follow her through getting to know people living there (mostly) full time . She becomes friends with several Mediums. She is open to try everything. She is constantly objective. She almost ends the book with extreme doubt ... but continues and a life changing experience happens!

In Lily Dale, New York, the dead don't die. Instead, they flit among the elms and stroll along the streets. According to spiritualists who have ruled this community for five generations, the spirits never go away and they stay anything but quiet. Every summer twenty thousand guests come to consult the town's mediums in hopes of communicating with dead relatives or catching a glimpse of the future. Weaving past with present, the living with the dead, award-winning journalist and bestselling author Christine Wicker investigates the longings for love and connection that draw visitors to "the Dale," introducing us to a colorful cast of characters along the way including such famous visitors as Susan B. Anthony, Harry Houdini, and Mae West. Laugh-out-loud funny at times, this honest portrayal shows us that ultimately it doesn't matter what we believe; it is belief itself that can transform us all.

Thoroughly engaging. (Cleveland Plain Dealer) A probing study of the nature and power of faith, Wicker's story is often a hoot as well.... (Fort Worth Star-Telegram) Royally entertaining. (Dallas Morning News) About the Author Christine Wicker was raised in Oklahoma, Texas, and other parts of the South.
