Ulrich Victor : Lukian Von Samosata: Alexandros Oder Der Lugenprophet (Religions in the Graeco-Roman World) (Social, Economic, and Political Studies of the Middle East a) (German Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lukian Von Samosata: Alexandros Oder Der

Lügenprophet (Religions in the Graeco-Roman World) (Social, Economic, and Political Studies of the Middle East a) (German Edition):

Lucian's *Alexander the False Prophet* is the only literary testimony to a highly influential cult of the 'New Asclepius Glykon' which, as archaeological evidence continues to document, spread all over the eastern Mediterranean basin throughout the second and third centuries AD. This book offers an analysis of the complete manuscript tradition, a newly constituted text and a German translation. The extensive introduction deals with (1) the archaeological evidence, (2) the question of Lucian's historical reliability, (3) the reasons for Lucian's opposition to the oracle of Abonuteichos, (4) the institutions and the teaching of the cult at Abonuteichos. Furthermore, there is a commentary on all philological and historical questions and on those issues relevant to the history of religions. Lucian's *Alexander* is not one of his satirical bravuras, but a strikingly successful attempt at writing a work of contemporary history - a practical example of what the author himself has theoretically discussed in his work, *How to Write History*.

Language NotesText: German (translation) Original Language: GreekAbout the AuthorUlrich Victor, Dr.Phil. (1983) in Classical Philology, Free University of Berlin, is Lektor in Greek and Latin at the Humboldt University, Berlin. He has a number of previous publications in the field of the tradition history of Greek literary. Ulrich Victor, Dr. phil. (1983) in Klassischer Philologie, Freie Universität Berlin, ist Lektor des Griechischen und Lateinischen and der Humboldt-Universität Berlin.
