**Meredith Leyva : Married to the Military: A Survival Guide for Military Wives, Girlfriends, and Women in Uniform** before purchasing it in order to gage whether or not it would be worth my time, and all praised Married to the Military: A Survival Guide for Military Wives, Girlfriends, and Women in Uniform:

0 of 0 people found the following review helpful. badBy Rodney BoydThis book is not really anything special because it is not very different than any of the other books out there for military wives. I find that it is mostly a vehicle to promote her website instead of giving you the true insider's view of military life. I get much better information from support websites sepcific to the branch of the military that my husband is in. It is not worth the money I spent on it.4 of 4 people found the following review helpful. Future Army Wife Loved ItBy Joseph O'ShaughnessyI got this for my wife, before I leave for basic, and now she knows a lot more then I do. I haven't read it myself but the information shes repeating back is germane and accurate. She says its great and it has provided some pre-enlistment advice that has proven extremely valuable. I can't say the book would be the ultimate guide to everything but..... If you have a significant other who's having a hard time understanding what she's going to have to adjust to. **GET THIS BOOK.** It goes over drill and ceremony, proper attire for you spouse during Military events. Remember even if your the one serving, our spouses still represent us and should be given the best to make it through as well.2 of 2 people found the following review helpful. WonderfullBy SavannahI really enjoyed this book as a new military wife I see a lot of good information all in one spot. Yes you can find all this information on websites like military.com and milspouse but that is long. I love the direct format that the book makes you process and it is blunt all qualitys I like! However something's need more elaboration for a basic overview if it's directed towards a guide book but the author does present links to other things that will help you. Loved the book !

The Unofficial Scoop on Military LifeWhether youre dating, engaged, or married to an active military servicemember or reservistor youve just signed up yourselfyou may feel as if youve somehow married the United States military! While there are plenty of orientation books for him, there are almost no handy, user-friendly resources for you. Meredith Leyva, a military wife and founder of CinCHouse.com, the Internets largest community for military wives, girlfriends, and women in uniform, details everything you need to know to manage day-to-day issues and get on with the adventure of military life. From relocation to deployment, protocol to finances, and career to kids, Leyva offers time-tested advice about: -Keeping your love life together during deployments -Relocating yourself and your family around the world -Maintaining your own career when you're expected to move every three years -Understanding what pay and benefits you're entitled toand how to maximize them -Translating those odd acronyms and jargon Written by a seasoned military wife, this smart and savvy guide will help you take control at every point of your servicemember's careerfrom filing marriage papers as newlyweds to choosing prenatal and child care when you start a family to figuring out his pension when he's ready to retire.
