So, stuff does go on a bit too long and can cause you to get lost, but overall good textbook!! 0 of 0 people found the following review helpful. Required for a class By Pennie Boyett The book was written in 2000 and the world is a different place. I don't know how it will be used in class, but the first two chapters

are a view into the past. However, the book arrived promptly, in an excellent condition, and was reasonably priced, so I cannot complain. 4 of 4 people found the following review helpful. Top-notch reading! By L.G. Explores fascinating, challenging and modern concepts and examples that academic and nonacademic readers can understand and appreciate. An inspiring way of thinking about the many connections among media, communication and culture. What makes this book so special is the original and provocative content and reader-friendly style. Lull guides the reader from basic concepts like ideology and the active media audience to sophisticated ideas like symbolic power, transculturation, and the superculture. This book sparks new ways of thinking globally about communication and culture and how media plays a role in both. Highly recommended.

This critical introduction to media and culture reflects on the unique global environment in which we live. It discusses such subjects as the part played by satellite technology in the downfall of socialist governments in Eastern Europe.

"Tuttle's extensive original research lends itself to a lively and detailed account... Essential Reading." -- Benjamin Bogin, BUDDHADHARMA "This book offers a nuanced examination of a complicated relationship... Recommended." -- Choice "Tuttle approaches this complicated history with courage and clarity of perspective... Tuttle has done us a great service." -- Zvi Ben-Dor Benite, American Historical "Gray Tuttle's scholarship is of the first order, and he provides a model other historians of the region would do well to emulate." -- Derek F. Maher, East Carolina University, Journal of Chinese Religions "A welcome addition... [that] will serve as an important reference in the related fields for some time to come." -- Hsiao-Ting Lin, China Information "A scrupulous piece of historical scholarship... [that] should be compulsory reading for every journalist or academic working in this area." -- Timothy Barrett, Asian Affairs "An excellent piece of scholarship that definitely deserves reading by anyone interested in the history of either Tibet or China." -- Andrew Fischer, Nations Nationalism "[A] stimulating and rich book... an important landmark in the field of both Tibetan and Chinese studies." -- Margherita Zanasi, Journal of the American Academy of Religion "As the vanguard of a coming wave of new research, Tuttle's work raises the bar for a reinvigorated field of inquiry." -- Charlene Makley, Journal of Asian History "[An] excellent and important contribution to the history of the religious -- and therefore political -- relationship between Tibet and modern China." -- Eric D. Mortensen, Religious Studies About the Author Gray Tuttle is Leila Hadley Luce Assistant Professor of Modern Tibetan Studies in the Department of East Asian Languages and Cultures at Columbia University.
