Claudia Koonz : Mothers in the Fatherland: Women, the Family and Nazi Politics before purchasing it in order to gage whether or not it would be worth my time, and all praised Mothers in the Fatherland: Women, the Family and Nazi Politics:

From extensive research, including a remarkable interview with the unrepentant chief of Hitlers Womens Bureau, this

book traces the roles played by women as followers, victims and resisters in the rise of Nazism. Originally published in 1987, it is an important contribution to the understanding of women's status, culpability, resistance and victimisation at all levels of German society, and a record of astonishing ironies and paradoxical morality, of compromise and courage, of submission and survival.

from the original edition: A splendidly thorough analysis (though it often reads like a story) of an element of Nazism which has rarely been properly examined. Independent A fascinating and intensely personal new study of women in Nazi Germany...a crucial insight into the role of women in that ruthless anti-feminist regime. Guardian The first thorough treatment of women's collaboration in the madness and evil of Adolf Hitler's Germany...powerful, reflective and cathartic. Chicago Tribune
