Mothers Making Latin America: Gender, Households, and Politics Since 1825 (Viewpoints / Puntos de Vista):

Mothers Making Latin America utilizes a combination of gender scholarship and source material to dispel the belief that women were separated from or unimportant to central developments in Latin American history since independence. Presents nuanced issues in gender historiography for Latin America in a readable narrative for undergraduate students. Offers brief, primary-source document excerpts at the end of each chapter that instructors can use to stimulate class discussion. Adheres to a focus on motherhood, which allows for a coherent narrative that touches upon important themes without falling into a list of facts textbook style.

From the Back Cover The cult of motherhood has a lengthy and complex history in Latin American society. Mothers Making Latin America utilizes a combination of innovative gender scholarship and primary source material to dispel the commonly held belief that women were separated from or unimportant to central developments in Latin American history since independence. With scholarly precision, author Erin E. O'Connor also discards the popular notion that the only women worthy of study were those who rejected gender norms in their entirety. Instead, O'Connor explores how ideas about motherhood, and women's own interpretations of that role, were often central to processes of socio-political change in Latin America. Featuring a thought-provoking blend of original scholarship with an accessible narrative thread, Mothers Making Latin America helps to reshape our understanding of Latin American gender history.
