F. E. Peters : Muhammad and the Origins of Islam (Suny Series in Near Eastern Studies) (Suny Series, Near Eastern Studies) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Muhammad and the Origins of Islam (Suny Series in Near Eastern Studies) (Suny Series, Near Eastern Studies):

1 of 1 people found the following review helpful. Get the collectible edition if you can - this one should hold a place on your shelf. By Gary Johnson Over 30 years after its initial publication, F.E. Peters' scholarship remains impressive in his *Muhammad and the Origins of Islam*. I have read dozens of biographies and orientalist works on the subject. Peters seems to have one hand in the Oriental camp and another in the Revisionist school of thought. He walks the fence and rises above both. 0 of 0 people found the following review helpful. Very Well Written --By Judy Azar LeBlanc I really enjoyed the writing of the book as it made me grasp a clearer understanding of Islam from a historical point of view. 20 of 31 people found the following review helpful. *A Life of Prophet Mohammed* By Muzaffer Muctehitzade One of the best books about Prophet Mohammed (PBH), his life and religion of God. Author provides first a good history of Arabia prior to birth of Prophet where you get a good understanding of the environment, there are a lot of references to old greek, persian and Byzantium historians. Than mostly relying on Ibn Ishak's "Life of Mohammed" the birth and life of Mohammed is written. There are few references to Hadiths that may not necessarily be sahih or reliable but considering that they are muslim sources, author seems to take them as they are. I found this book written very nicely, all key events are described with quotations from the original sources and time to time author makes interpretations or value judgments. I found the ancient history of arabia very useful, provides you perspective and who is who type of information.

An inquiry into the religious environment of the person Muslims hail as the "Envoy of God" and an attempt to trace his progress along the path from paganism to that distinctive form of monotheism called Islam." Peters writes very well. The scholarship is excellent, and the book fills a gap in the available material. There are several lives of the Prophet, but none that does what this one does. Most are written to prove a particular thesis about the nature of the Prophet's career. This one simply puts down what can be known with any certainty about the career of Muhammad from the point of view of the contemporary secular historian." -- William C. Chittick "This book will become a major point of reference for years to come." -- Said Amir Arjomand
