delivery. The book is very interesting and tells the story of immigrant peddlers and the ability to adapt to their new home. The story is well written and keeps your interest. 2 of 2 people found the following review helpful. Take this Road By Jude Another contribution to the growing number of comparative studies that allows to understand Jewish developments in a global perspective. The economic history is enlivened by the colorful stories and lively writing. 0 of 0 people found the following review helpful. Take a hike! By Bob Salzman Far too repetitive. The author makes the same points over and over again. The content is interesting, but should have been the subject of an extended essay, rather than an entire book.

Finalist for the 2015 National Jewish Book Award--Celebrate 350 Award for American Jewish Studies Between the late 1700s and the 1920s, nearly one-third of the world's Jews emigrated to new lands. Crossing borders and often oceans, they followed paths paved by intrepid peddlers who preceded them. This book is the first to tell the remarkable story of the Jewish men who put packs on their backs and traveled forth, house to house, farm to farm, mining camp to mining camp, to sell their goods to peoples across the world. Persistent and resourceful, these peddlers propelled a mass migration of Jewish families out of central and eastern Europe, north Africa, and the Ottoman Empire to destinations as far-flung as the United States, Great Britain, South Africa, and Latin America. Hasia Diner tells the story of millions of discontented young Jewish men who sought opportunity abroad, leaving parents, wives, and sweethearts behind. Wherever they went, they learned unfamiliar languages and customs, endured loneliness, battled the elements, and proffered goods from the metropolis to people of the hinterlands. In the Irish Midlands, the Adirondacks of New York, the mining camps of New South Wales, and so many other places, these traveling men brought change to themselves and the families who later followed, to the women whose homes and communities they entered, and ultimately to the geography of Jewish history.

A richly wrought work of cultural and social history. Tony Barber, Financial Times
