**M. Hakan Yavuz : Secularism and Muslim Democracy in Turkey (Cambridge Middle East Studies)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Secularism and Muslim Democracy in Turkey (Cambridge Middle East Studies):

3 of 4 people found the following review helpful. Best book on AKP By Ali El Husseini This book explains the social and economic origins of the recent political transformation of Turkish politics (from Kemalism to civil/democratic

society). The Author argues that neoliberal economic and political openings helped to create Protestant Islam which is friendly towards democracy and market economy. Anyone who want to know when and under what conditions liberal islam is likely to emerge must read this book. His analyses about the evolution of a new political language is very clear and comprehensive. If you want to know what is going on Turkey you need to read this book.5 of 8 people found the following review helpful. Comprehensive and Insightful.By Frank RettenbergDespite the emotions its subject matter raises in Turkey, its Turkish author remains fair and objective towards all sides, or perhaps I should say equally critical of all sides. His judgments are acute, and his coverage comprehensive. An illuminating read.1 of 7 people found the following review helpful. utter rubbishBy mk dinaryutter rubbish and waste of time; not conducted rigorously, slapdash, sometimes misleading; I would recommend to those who would like to learn how not to write a scholarly book.

In 2002 the Islamist Justice and Development Party (AKP) swept to power in Turkey. Since then it has shied away from a hard-line ideological stance in favour of a more conservative and democratic approach. In this book, M. Hakan Yavuz negotiates this ambivalence asking whether it is possible for a political party with a deeply religious ideology to liberalise and entertain democracy or whether, as he contends, radical religious groups moderate their practices and ideologies when forced to negotiate a competitive and rule-based political system. The author explores the thesis through an analysis of the rise and evolution of the AKP and its more recent 2007 election victory. The book, which tackles a number of important issues including political participation, economics and internal security, provides a masterful survey of modern Turkish and Islamic politics, which will be of interest to a broad range of readers from students to professionals and policymakers.

'This book is an important contribution to the debate over whether 'Islamist' movements can democratise, join in mainstream politics and govern Muslim states.'
