Eamonn P. Kelly : Sheela-na-gigs (Irish Treasure series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sheela-na-gigs (Irish Treasure series):

Sheela-na gigs are carvings of naked females posed in a manner which displays and emphasises the genitalia. Once thought of in negative terms only, they have more recently come to be regarded in a positive light. This book assesses their origins, discusses the contexts in which they appear, usually on churches and castles, their cultural influences and function.
