Proof Muhammad adored Christians!!By Lover of HumanityThese documents are genuine no doubt about it and what they show is the exact opposite of what a corrupt, biased and untruthful press is saying.. Namely that Muhammad adored Christians and these Edicts are proof of it. Just read them and you will see all the lies about Muhammad fully exposed as fraudulent and deliberate misinformation by some to get you to hate Islam.You read this and then you can see what kind of man Muhammad really was and what He really taught.He said anyone who mistreated the Christians He Himself would denounce as a liar and disown him as a Muslim. And there's so much more you just have to read this to really know how kind and loving Muhammad truly was.0 of 0 people found the following review helpful. With so many negatives reports about Islam and Muslims killing ...By ZeeWith so many negatives reports about Islam and Muslims killing Christians and Jews, this book brings to light that actual treatment that non-Muslims are supposed to receive from Islamic governments. Even the actual infidels (those non considered people of the scriptures) are not to be treated inhumanely and Muslims can only fight/execute them IF they have attacked first. Even then, Islam provides so many restrictions on how they need to be treated. This also shows that the current cults of ISIS and Wahabbism (Taliban, al-Qaeda,etc) are NOT practicing what Islam commands. The authors of this book need to be highly commended--especially Dr. John Morrow as he continued with another book on his own. Until Christians and Jews see the truth in Islam and not rely on the media reports, there will never be justice or peace. To the authors--great job for bringing what should have been known already..to the public eye.

It is a blessing, a warning, and a sign that these Six Covenants of the Prophet Muhammad with the Christians of His Time have resurfaced at this particular moment in history. Renewed by caliphs and sultans, supported by scores of fatwas, and accepted as law for nearly 1400 years, these documents were common knowledge to educated Muslims and Christians until the collapse of the Ottoman Empire, after which they virtually disappeared from collective consciousness. Their rediscovery will certainly open a new field in both Islamic Studies and interfaith relations. As the written words of the Prophet Muhammad himself, peace and blessings be upon him, and a central part of the Sunnah, they should sit side by side with the Qur'an in both mosque and home. If Muslims are ever to recover the reality of Islam and undergo a collective awakening, these covenants of hope will play a major part in that restoration. Those wishing to familiarize themselves with Dr. Morrow's exhaustive arguments supporting the authenticity of these Covenants should refer to *The Covenants of the Prophet Muhammad with the Christians of the World* (Angelico, 2013).
