By Ann Marie Wells I have read all of Kristen's books, Band of Sisters, The Girls Coming Marching Home and her latest Soul Survivors. Her insight into relaying our feelings are incredible. When you think you are alone, you find that many females in the military feel the same way and you are not alone. The women profiled in this book are strong and are survivors and I thank you and Kristen for having the courage to speak out and let the world what we are feeling. Thanks for another great book!

By Kathryn L. Greten Just Finished This! This was awesome! One I will read more than once! I love all Vets, but it gives me more of an Appreciation for Women Vets, that wanted to serve, and was put thru the ringer in more ways than on!

By Eric A. Holmstedt I am biased because the author is my sister. But that being said - all of Kirsten's books provide a real in depth view of real female veterans of US conflicts. It as emotional reading as it is informational. Very touching moments in each book. Enjoy your read.

Life is tough for veterans, especially female veterans. They have much to deal with and much to heal from: combat, physical and psychological wounds, sexual harassment and assault, trauma, stress, chains of command, the VA. Now more than ever these veterans are facing their problems head on. In this inspiring new book, Kirsten Holmstedt, trusted chronicler of women soldiers and veterans, tells the ups-and-downs stories of veterans struggling with the aftereffects of military service. Introduces us to more than a dozen female veterans from all branches of the military, from Vietnam through Iraq and Afghanistan Highlights where the military has succeeded and failed to help veterans
