The subject as the title of the book suggests we are looking into the Middle East. A lot of the documents within each chapter are really surprising this was stuff we were never taught about. due to most school systems in the United States completely omitting any teachings of other countries for the most part to focus on war's, Causes/movements, and feats of our founding fathers and presidents. I will be honest in saying I may have never picked this book up. I will also say that this is not a traditional textbook. It's not simply laid out with chapter outlines,

headings, and vocabulary. Its about looking at documents written by people during that particular time based on certain subjects like social reform, government authority, Nationality and more. You have to think critically while and after each reading. I welcomed this as opposed to answering questions out of a book.1 of 1 people found the following review helpful. Interesting read in a college courseBy Laffinlex6I've read through chapter 4 of this book so far. Some of the stories are very interesting and all represent one person's perspective during a particular time period. Some were very boring and a lot of unfamiliar words which slow down the reading. There are 5 sections to each chapter and each section has 3 discussion questions. Some are easier to answer than others. This book would be okay to read...maybe a few sections at a time for class...but having to read and answer 5 chapters worth of questions for one assignment (75 questions) is excessive and interest is lost.0 of 0 people found the following review helpful. Five StarsBy CustomerThe service was fast and good.

This unique primary source reader provides first-hand accounts of the events described in Middle Eastern history survey texts. The text is organized into ten chapters featuring chapter introductions and headnotes. The primary source documents cover the late 18th century through the beginning of the 21st, exploring political, social, economic, and cultural history and infusing the volume with the voices of real people.

About the AuthorAkram Khater teaches history at North Carolina State University and received his Ph.D. from the University of California, Berkeley in 1993. He specializes in the history of the Middle East. He received the NCSU Outstanding Teacher Award for 1998-1999 and the NCSU Outstanding Junior Faculty Award for 1999-2000. He is currently developing an undergraduate and masters program on teaching high school world history.
