Katharine J. Lualdi : Sources of The Making of the West, Volume II: Since 1500: Peoples and Cultures before purchasing it in order to gage whether or not it would be worth my time, and all praised Sources of The Making of the West, Volume II: Since 1500: Peoples and Cultures:

0 of 0 people found the following review helpful. It is very useful. I highly recommend itBy AbanoubIf you're renting

the book for class and using Kindle for PC, there are going to be a few excerpts missing. The first piece is Bartolome's In Defense of Indians, there are a few more that my class hasn't gotten to. Apparently this only happens on the Kindle for PC, as the missing excerpt shows up on the iPad. I've contacted and they said they're contacting the publisher. If you're going to be renting this book for class, I'd check first with to see if the problem has been resolved. ONLY applies to Kindle for PC. I'm using the main book, not the "sources" version for a college class, and this one is used as a supplemental one to the main reading. It is very useful. I highly recommend it. It is extremely helpful in making sense of the historical periods, and understanding things in better context. I'm using the main book, not the "sources" version for a college class, and this one is used as a supplemental one to the main reading. It is very useful. I highly recommend it. I love books that go back to ...By BenGreat book. I love books that go back to source documents. I am a history major and my professor uses this book and ones like it to help us place ourselves in the past. Reading thoughts and words from people of the time has been helpful and eye opening. I would recommend this to anyone looking for something from the people themselves. This is NOT a comprehensive history book, be aware of that when you buy it. This is a helpful companion to go along with you're studies or classroom. 1 of 1 people found the following review helpful. Goes perfectly with the regular "Making of the West" textBy Rita CampbellI'm using the main book, not the "sources" version for a college class, and this one is used as a supplemental one to the main reading. It is very useful. I highly recommend it. It is extremely helpful in making sense of the historical periods, and understanding things in better context.

Sources of The Making of the West provides written and visual documents closely aligned with each chapter of The Making of the West. This two-volume collection reinforces the major political, economic, social, and cultural developments in the textbook by allowing students to engage directly with the voices of those who experienced them. Over thirty new documents and visual sources highlight the diversity of historical voices including both notable figures and ordinary individuals that shaped each period. To aid students in approaching and interpreting documents, each chapter contains an introduction, document headnotes, and questions for discussion.

About the AuthorKatharine J. Lualdi (Ph.D., University of Pennsylvania) is coeditor of *Penitence in the Age of Reformations* (Ashgate, 2000) and *Handbook for Curates: A Late Medieval Manual of Pastoral Care* (The Catholic University of America Press, forthcoming). She has also authored numerous articles and book chapters on sixteenth-century French Catholicism. She teaches history and religion at the University of Southern Maine.
