**Mohammed Yunus, Aradhana Parmar : South Asia: A Historical Narrative** before purchasing it in order to gage whether or not it would be worth my time, and all praised South Asia: A Historical Narrative:

Historical Narratives have played a decisive role in shaping the politics and identity of contemporary South Asia. This book reflects two different historical narratives - Hindu and Muslim - and offers a balanced and objective view of one of the longest uninterrupted histories of the world by carefully considering the historical circumstances that created not only differences but also similarities in the experiences of the people of South Asia.

...a useful, easy to read and follow chronological narrative of South Asian history from the earliest times until

independence and partition of India in 1947. The book is well illustrated with a number of well laid-out maps, which help the reader put the narrative in context. U.S.I Journal
