**United Nations : State of the World's Cities 2012-2013: Prosperity of Cities** before purchasing it in order to gage whether or not it would be worth my time, and all praised State of the World's Cities 2012-2013: Prosperity of Cities:

What this new edition of State of the Worlds Cities shows is that prosperity for all has been compromised by a narrow focus on economic growth. UN-Habitat suggests a fresh approach to prosperity beyond the solely economic emphasis, including other vital dimensions such as quality of life, adequate infrastructures, equity and environmental sustainability. The Report proposes a new tool the City Prosperity Index together with a conceptual matrix, the Wheel of Prosperity, both of which are meant to assist decision makers to design clear policy interventions.
