Incisive insights into 3 nations of the Iranian plateauBy Roarshak@aol.comA scholarly work that tells the reader more about Afghanistan, Iran, and Pakistan than any tour book and most encyclopedias. The mosaic tapestry of peoples, cultures, and religious sects is presented clearly and with great detail. Each nation is presented as the heir to a unique civilization, but is torn by ethnic divisions and political instability. As three non-Arab Islamic nations that exist along ancient invasion routes overlapping into Western, Central, and South Asia the common historical bonds are explored, but the differences are also pointed out. Like many countries in the Near East ethnic groups overlap past the modern frontiers, creating concerns about nationalism and secessionist movements. All of these issues are explored as are larger geo-political ones regarding the military, civil unrest, and the role of democracy in three undemocratic societies (although Pakistan has moved towards a more democratic status of late). This is a fascinating and informative look at eastern wing of the broad of 2 people found the following review helpful. The State, Religion and Ethnic Politics: Afghanistan, Iran and Pakistan (Contemporary Issues in the Middle East)By James JoyceA comprehensive collection of academic research presented at a symposium in November 1982. Messrs. Banuazzi and Weiner have edited over 12 presentations. Although somewhat dated, the material covered is a relevant today (2006) as it was over 14 years ago. I do not consider myself an expert in the political and economic dynamics of the area. I do desire to learn and found this book a good foundation.

"Contributors to the volume are established scholars in their fields and successfully focus on the pertinent issues with a good mix of facts, analysis, and theoretical orientation. The contributions are pertinent and valuable to students of comparative politics generally, as well as to specialists on the selected countries."-Choice
