following review helpful. Five StarsBy CustomerJust right0 of 0 people found the following review helpful. Great BookBy Michael GrahamThis book is used in my history class and it really adds to the historical evens of "taking sides" and encourages constructive debates in class.

This debate style reader is designed to introduce students to controversies in western civilizations. The readings, which represent the arguments of leading historians and researchers, reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. This new title will be a beneficial tool to encourage critical thinking on important issues in western civilizations.
