Truly written by an engineer obsessed by data and not worried particularly about offending any readers who may have limited perspectives. While it is true, most of our history has been written by the winners and a lot of it is simply wrong. You simply cannot fix it all in a mere 200 pages. And if you would try, you would offend many as evidenced in various reviews. Consider the several page negative review. What would prompt one to react so? For myself, it was a flag to definitely get the book! The book is great, and I mean really great. It is not complete in itself. A good start is to listen to his 3 hour interview about the book 8-21-2013 on Coast to Coast Radio archives. Sitchin's books, Tellingner and Heine's "Adam's Calendar" books all tell much of the story. It is really out there now, but as yet, somewhat obscure. This book is a good part of the unraveling of our history that is taking place right in front of us at this moment while we all watch. For some, they may choose to go back to sleep. For others, it is of the most important and profound importance. If you have ever wondered "who we are" and "where did we come from", then this book will be of great value. One can imagine that this book will be spawning others that in turn, will bring a whole new understanding of the "who and why" that we are.

0 of 0 people found the following review helpful. balancing the old with the new By Kenneth Hoffman aka The Crackpot This book tries to weave the works of Zachariah Sitchin, Egyptian history, the Bible, and modern science together. I always struggle when I have to read biblical or Sumerian texts (translations of them, that is). But the mentions of a scientific nature were really interesting, ones such as the use of mono-atomic gold by the Egyptians. The possibility of the Anunnaki ingesting the gold, is quite interesting. New scientific discoveries every day, make very little to be beyond the realm of being possible. If you enjoy the writing style of Sitchin, then you will definitely enjoy the book. If not, your like me, you'll find the book good but hard to get through

0 of 0 people found the following review helpful. Learn the FACTS about civilization on Earth! By Can't be Fooled Good primer on the history of civilization on this here planet. Makes all man ,ade religions look like a circus act!

Many historical and scriptural findings not included in the Canonical Bible, have now come to light. Access to texts such as the Lost Book of Enoch, the Nag Hamadi Gospels, and the Book of Jubilees, among others is now widely available and, when synthesized and correlated with existing documents like the Bible and Qu'ran, merits rethinking Western civilization's origins and intent. Prepare yourself for a profound belief-challenging journey through ancient Persia, Sumer, Greece, and Atlantis; from Rome to the United States, HQ of the New Atlantis. This book is not like any other in the field: expect the winged-warrior aerial perspective of an Army Attack helicopter pilot, the BS filter of an Electrical Engineer, a Western Medicine-challenging Structural Integrator, and Southern California didgeridoo player all at the same time. Energy and matter, sound entrainment, slave control design methods using the electromagnetic spectrum, eternal life, gravity, and DMT are addressed herein. U.S. public school history ignores the Sumerians, although they are credited with all aspects of modern civilization, influencing both Egypt and Greece alike. Television series produced by the History Channel, like the "Ancient Aliens" Series is assisting the masses in waking up to the fact that the Anunnaki were not a myth, having left physical documents and artifacts backing up their claims to have created mankind, described in highly sophisticated language, as recorded by Atrahasis. It was in South Africa, where the idea was spawned to create a primitive worker, namely mankind, to operate the gold mines, provide temple building manpower, and generally serve every whim the Ancient Astronauts from Nibiru conceived of. Many of the Nibirians, referenced in the Biblical Genesis as the Elohim, known to the Sumerians as the Anunnaki, were enthroned as Gods in Mesopotamia. Perhaps it is fitting for Westerners to look into the religious and historical origins for the kings and demigods of Sumer, the first culture to provide evidence of the cuneiform script language, complete with no antecedent. Not only were mundane records, detailed as they were, kept on clay tablets, tens of thousands of which survive to this day, but the history and direct experience accounts of some of the famed inhabitants, like king Gilgamesh of Uruk, introduce us to "Those who from Heaven to Earth Came." The Anunnaki astronauts hailed from a planet, Nibiru, in our own solar system, whose apogee resides in a 3,600 retrograde elliptical orbit beyond Pluto. According to their records, likely using spectroscopy as scientists do today, they located gold on planet Earth. Due to a failing atmosphere on Nibiru, Anu their king, dispatched his preeminent scientist and first-born son, Enki, on a space mission to Earth to recover enough gold that could be ionized in a layer of their atmosphere, as a solar radiation shield. Anunnaki gold mines in Africa have been found and carbon dated. Mining operations were occurring at the exact time and location that the "Genetic Eve Study" indicates: Womankind's genetic origins are undeniably linked to Enki's gold mining operation. Egyptian Queen Sheba's mines ring a bell? Michael Tellingner followed the Sumerian account to Africa, locating many of the mines, homes and temples used by the primitive workers and gods, our true ancestors. Additional source material and limited genealogy tables are included in the Bibliography and Appendix for the reader to explore. More exhaustive ones are available by contacting the author. Now consider your place in the unfolding New World Order. Will you choose the Enlilites or Enkiites to affiliate with, or do you have a choice? Enjoy this intellectual read, it is mind-bending, pineal-gland stimulating, and worth it! Available as Hardback, Audio Book, and Kindle Now!

About the Author Gerald Clark is a 1994 graduate of the University of California at San Diego (UCSD). Gerald holds an MSEE in Electronic Circuits and Systems, and a BS in Computer Engineering both from UCSD. Gerald is the author of several papers in the communications and electronics field and is well known for his work in the San Diego high technology industry, awarded several patents in the Free Space Optical Laser Communications field while serving as Vice President of Engineering, LightPointe Communications, Inc. Gerald's career involved companies like Loral Telemetry and Instrumentation where he led the final phase of the Globalstar Telemetry and Command modem designed for Qualcomm- used to command, monitor, and control 54 LEO Globalstar Constellation Satellites. While serving as VP Engineering at Tiernan Communications, Gerald and his small team of hardware and software engineers were credited with Digitizing American Television, having demonstrated the first live HDTV ABC Monday Night Football game on-air transmission from New York to San Diego using Tiernan Communications, Inc. HDTV 1080i/720p MPEG-2 Encoders. During the years 1996-2002, working as a telecommunications executive, Gerald's business travels took him to various parts of the world exposing him to a plethora of cultures which acted as a catalyst for his research into mankind's earliest technologies and accomplishments, including the cultures of Mesopotamia and the surrounding areas of Turkey, Egypt, Persia, and Iraq, eventually leading to the cuneiform-inscribed tablets left by the Sumerians. Knowledge of the Anunnaki here on Earth, both in the ancient past their presence here and now, is being fully-disclosed around the world. My hope is that this book will help the billions of primitive workers, left to fend for themselves on a hostile planet, to find hope that following the great destruction underway, wrought by the warring gods of Light and Dark, a promised peace in the new age of Aquarius is dawning, actually already upon us. I am excited to share this research with like-minded authors, film makers, and seekers of the truth. Contact me at: clark.gerald7@gmail.com Be ye kind and of good integrity, most of all animate the frequency of Love, the one devised by the Creator of All for us to enjoy. Best wishes on your quest and I look forward to hearing from you.
