Alfonso Caso : The Aztecs: People of the Sun (Civilization of the American Indian) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Aztecs: People of the Sun (Civilization of the American Indian):

12 of 12 people found the following review helpful. The Aztec Pantheon ExplainedBy Enrique TorresIf you're into pre-Columbian and Mexican history this is an excellent choice to add to your collection. Written by Alfonso Caso, who directed the findings at Monte Alban and was the former director of archeology in the National Museum of Mexico, the man knows his history. The Aztecs and all their rituals , including the Gods and calendar are explained in easy to read language. The text is not overburdensome with highly specialized jargon but is eloquent and to the point. This book is an easy read. The illustrations are worth the price of the book alone. They are by Miguel Covarrubias, one of Mexico's finest illustrators at the time, and he does a fantastic job depicting the colorful Aztec world. An essential book for anyone intersted in exploring the Aztecs.

A study of the social, cultural, and religious customs of this glorious Mexican civilization destroyed by Cortes and his Spanish conquistadores . (From the Book) Chapters include "Magic and religion -- The character of the Aztec religion -- The creation of the gods -- The four directions -- The creation of man -- Man, the collaborator of the gods -- The creator gods -- The raiment of the gods -- Complexity of the Aztec pantheon -- Tezcatlipoca -- The worship of the sun, the moon and the stars -- The gods of fire -- The gods of water and of vegetation -- The earth gods -- The gods of

death -- The paradises and the hells -- The calendars -- Priestly organization -- The people of the sun.
