Benjamin P. Fagan : The Black Newspaper and the Chosen Nation before purchasing it in order to gage whether or not it would be worth my time, and all praised The Black Newspaper and the Chosen Nation:

Benjamin Fagan shows how the early black press helped shape the relationship between black chosenness and the struggles for black freedom and equality in America, in the process transforming the very notion of a chosen American nation.

Fegan reads newspapers as a central vehicle for nineteenth-century black Americans' religious and political self-expression. . . . [I]n focusing on the ideological and religious values that propel the early black press, Fegan usefully builds on the work of scholars such as Frances Smith Foster, Carla Peterson, John Ernest, and Eric Gardner, who have emphasized the Afro-Protestant press's central role in nineteenth-century black print culture. . . . Fegan's book nimbly balances analysis of political and religious newspaper content alongside attention to each paper's historical context. (American Periodicals)About the AuthorBenjamin Fagan is assistant professor of English at Auburn University.
