I have the Car Design Yearbook #3, #4, and #5 added into my collection. Kind of old school to have a physical book on a bookshelf..but something about that feeling makes me smile for now. Only flipped thru the book a couple of times..and loved it so much that I've kept my fingers off of it for preservation. 0 of 0 people found the following review helpful. The Car Design Yearbooks are a must for any car ... By Genny Norris The Car Design Yearbooks are a must for any car enthusiast. The pictures are large and the books contain a wealth of information and cars to drool over. 0 of 0 people found the following review helpful. Four Stars By JERRY M

KOZLOW Love this series!

This brand new title in the definitive Car Design Yearbook series features all the new cars launched worldwide from April 2005 to March 2006. Also included are special features on Italian car design and the latest in dashboard design, profiles of the industry's leading designers, a full technical glossary and a list of all the motor shows in the year ahead. For the fifth yearbook, Stephen Newbury also assesses the recent evolution of design styles, from retro to soft; of concept types, from SUVs to sports cars; and of new interior materials and exterior colours.

Let your eyes gaze on the flowing lines and fetching curves of the world's most dazzling production and concept cars. About the Author Stephen Newbury has played a leading role in the creation of an exciting range of road vehicles, from concepts such as the 3PV to contemporary production cars such as the Volvo C70 and the Renault Clio Sport V6. He now works as a freelance writer and design consultant.
