Arthur Herman : The Cave and the Light: Plato Versus Aristotle, and the Struggle for the Soul of Western Civilization before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Cave and the Light: Plato Versus Aristotle, and the Struggle for the Soul of Western Civilization:

0 of 0 people found the following review helpful. History of philosophy and philosophy in historyBy Dustin LovellExcellent book with a consistently argued thesis. For the breadth of the topic, Herman's presentation is relatively concise and easy to follow. I especially appreciate how he finessed the entrance of Christianity (a belief/worldview of Jewish origin) into the Greek realm of ideas, positing how the pre-existing philosophies of Plato and Aristotle affected interpretation and application of Jewish/Christian revelation without being the original source of it. A good place to start if one is investigating not just the history of philosophy, but different philosophies running through history. I recommend the audiobook if one isn't able to commit to 700+ pages.2 of 2 people found the following review helpful. Makes history and philosophy an adventure!By Donald A. HicksFantastic, an intellectual epic that reads like an adventure story. Human history is certainly more complex than the two person dialectic device represents, but the device is absolutely useful as a tool for understanding, and the author uses it to huge and important effect.0 of 0 people found the following review helpful. ... so I was worried about what it would look like. It arrived on scheduleBy Ronald M. BaxterThe product was advertised as "acceptable" so I was worried about what it would look like. It arrived on schedule, and it looked more in very good condition. This will be something I will be proud to own.

Arthur Herman has now written the definitive sequel to his New York Times bestseller, *How the Scots Invented the Modern World*, and extends the themes of the book which sold half a million copies worldwide back to the ancient Greeks and forward to the age of the Internet. *The Cave and the Light* is a magisterial account of how the two greatest thinkers of the ancient world, Plato and Aristotle, laid the foundations of Western culture and how their rivalry shaped the essential features of our culture down to the present day. Plato came from a wealthy, connected Athenian family and lived a comfortable upper-class lifestyle until he met an odd little man named Socrates, who showed him a new world of ideas and ideals. Socrates taught Plato that a man must use reason to attain wisdom, and that the life of a lover of wisdom, a philosopher, was the pinnacle of achievement. Plato dedicated himself to living that ideal and went on to create a school, his famed Academy, to teach others the path to enlightenment through contemplation. However, the same Academy that spread Plato's teachings also fostered his greatest rival. Born to a family of Greek physicians, Aristotle had learned early on the value of observation and hands-on experience. Rather than rely on pure contemplation, he insisted that the truest path to knowledge is through empirical discovery and exploration of the world around us. Aristotle, Plato's most brilliant pupil, thus settled on a philosophy very different from his instructors and launched a rivalry with profound effects on Western culture. The two men disagreed on the fundamental purpose of the philosophy. For Plato, the image of the cave summed up man's destined path, emerging from the darkness of material existence to the light of a higher and more spiritual truth. Aristotle thought otherwise. Instead of rising above mundane reality, he insisted, the philosopher's job is to explain how the real world works, and how we can find our place in it. Aristotle set up a school in Athens to rival Plato's Academy: the Lyceum. The competition that ensued between the two schools, and between Plato and Aristotle, set the world on an intellectual adventure that lasted through the Middle Ages and Renaissance and that still continues today. From Martin Luther (who named Aristotle the third great enemy of true religion, after the devil and the Pope) to Karl Marx (whose utopian views rival Plato's), heroes and villains of history have been inspired and incensed by these two master philosophers but never outside their influence. Accessible, riveting, and eloquently written, *The Cave and the Light* provides a stunning new perspective on the Western world, certain to open eyes and stir debate. Praise for *The Cave and the Light* A sweeping intellectual history viewed through two ancient Greek lenses . . . breezy and enthusiastic but resting on a sturdy rock of research. Kirkus Reviews Examining mathematics, politics, theology, and architecture, the book demonstrates the continuing relevance of the ancient world. Publishers Weekly A fabulous way to understand over two millennia of history, all in one book. Library Journal Entertaining and often illuminating. The Wall Street Journal From the Hardcover edition.

From Booklist Herman (*How the Scots Invented the Modern World*, 2002) boils Western philosophy and culture down to two competing notions: the idealism of Plato and the empiricism of Aristotle. Plato, says Herman, asks, How do you want your world to be?; Aristotle, on the other hand, asks, How do you fit into the world that already exists? Walking through two and a half millennia of Western thought, Herman emphasizes that the two philosophies—the material and the spiritual aspects of existence—have repeated themselves through Western history, waxing and waning and remaining in tension with each other to the present day. Romanticism? Poetry? Totalitarian dogmatism? That's Plato. The U.S. Constitution? The Manhattan Project? Modern consumer culture? That's Aristotle. If it sounds like a sweeping polemic, that's because it is; Herman seems to revel in overbroad claims, particularly when he's talking about modern phenomena. Beneath all the broad assertions and polemic showiness, however, lies a serious argument for the primacy of Plato and Aristotle and the essential dynamism of a culture that embraces both philosophies. Praise for *The Cave and the Light* A sweeping intellectual history viewed through two ancient Greek lenses . . . breezy and enthusiastic but resting on a sturdy rock of research. Kirkus s Examining mathematics, politics, theology, and architecture, the book demonstrates the continuing relevance of the ancient world. Publishers Weekly A fabulous way to understand over two millennia of history, all in one book. Library Journal Entertaining and often illuminating. The Wall Street Journal Praise

for Arthur Herman Gandhi Churchill Finalist for the Pulitzer Prize You finish the book knowing that you can evaluate the world today, particularly modern India, with more knowledge and insight. USA Today Scrupulous, compelling, and unfailingly instructive . . . a detailed and richly filigreed account that introduces the Anglo-American reader to many facts and vivid if little-known personalities, both English and Indian. Commentary Freedoms Forge A rambunctious book that is itself alive with the animal spirits of the marketplace. The Wall Street Journal How the Scots Invented the Modern World Professor Herman demonstrates an infectious and uplifting passion for his subject. Unlike many academics, he is a natural writer, weaving philosophical concerns seamlessly through a historical narrative that romps along at a cracking pace, producing a text that is highly accessible without compromising the rational quality of his argument. The Guardian From the Hardcover edition. About the Author Arthur Herman is the bestselling author of Freedoms Forge, How the Scots Invented the Modern World, The Idea of Decline in Western History, To Rule the Waves, and Gandhi Churchill, which was a 2009 finalist for the Pulitzer Prize. Dr. Herman taught the Western Heritage Program at the Smithsonian's Campus on the Mall, and he has been a professor of history at Georgetown University, The Catholic University of America, George Mason University, and The University of the South at Sewanee.
