The Emergence of Hinduism from ChristianityBy SnehaThis book is radically different and present many ideas that deserve further investigation. There is a plethora of allegorisation, which are presented as facts (much to my dislike). But the book is certainly the first of its kind and gives an idea on the evolution of Vedic religion to the present day Hinduism. This is a subject that must be researched further, along with the role of Christianity in this remarkable transformation.7 of 9 people found the following review helpful. really?By A customerThe very title of this book tells you it has no basis in fact. Hinduism

has a long history, going back before recorded history. The idea proposed in this book would never be accepted by any scholar.

This book establishes that Hinduism is really of very recent origin. Evidences based on Archeology, Linguistics and History establishes beyond reasonable doubt that the modern Hinduism is an outgrowth of Thomas Christianity under the influence of Syrian Gnosticism. The myths of Mahabali and Parasurama refers to the defeat of Christians at the hands of the Vaishnavite gnostics. Evidences include the archeology of temples and idols. Earliest temples dates only from 150 AD. Earliest Sanskrit document dates only from 150 AD. Vedic gods disappeared new concept of Iswara came soon after the first century AD. In fact Hinduism appeared Kerala only after 6th C AD. This revised edition attempts to explain the Indian terms and history so that the book may be understood by non-Indian and non-Hindu readers.
