**Andree Feillard, Remy Madinier : The End of Innocence? Indonesian Islam and the Temptation of Radicalism**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised The End of Innocence?  
Indonesian Islam and the Temptation of Radicalism:

1 of 1 people found the following review helpful. The Best Book on its Subject, Crisp and Focused Writing Never DragsBy JFMPPFor those who are interested in this subject, look no further. This is the definite, most up to date book on Indonesian Islam and the ideological currents that influence it. Unlike others who have tackled this subject recently (e.g., Ricklefs), *The End of Innocence* is concise (336 p.), focused and what's more surprising for a translated book, beautifully written and organized. There is a modicum of historical perspective, but the bulk of the material centers around the waning days of the Suharto (New Order) era, and the advent of democracy (Reformasi). Relevant to all the religious challenges facing Indonesia today.

This volume is a translation of *Le Fin de l'innocence? L'Islam indonésien face à la tentation radicale de 1967 nos jours*, which was published to wide acclaim in 2006. It offers a unique overview of the role of Islam in Indonesian politics over the past few decades, paying close attention to the varying fortunes of key Islamist movements. The final chapter takes into account events that have taken place and publications that have appeared since 2006.
