Michael Savage : The Enemy Within: Saving America from the Liberal Assault on Our Churches, Schools, and Military before purchasing it in order to gage whether or not it would be worth my time, and all praised The Enemy Within: Saving America from the Liberal Assault on Our Churches, Schools, and Military:

1 of 1 people found the following review helpful. Straight into the unruled Heart's of LiberalsBy Travis TorresMr. Savage goes straight for the heart and untold news reports of the truth behind the liberal mind and their rotten soul. Mr. Savage explains thoroughly how the liberals destroy and contaminate anything the liberals possess their hands upon from the military to the schools, and from churches to the halls of our government. The author goes deep not only how liberals destroy the things that they take hold of but of how things untouched before are much fine and at it's best before liberals come into the doctrine of "If it's good for one person, it's good for the entire society." or "The rich has a responsibility of taking care of the poor because they make the poor work." Savage directly attacks and identifies the enemy that is within a whisper of our ears that only persuade to destroy ourselves and while it only satisfies our enemy. And with this knowledge the people have something to fight back.0 of 0 people found the following review helpful. Five StarsBy Dan McleodVery good read.0 of 0 people found the following review helpful. Four StarsBy Dave's Not HereDecent

America's bravest, brashest voice is back?as ferocious and cutting as ever. "Where has six decades of radical, mad-dog liberalism brought us?" Savage asks in his electrifying new book. "I'll tell you where: America is teetering on the cliffs of insanity." Written with the fire, the conviction, and the clear vision of a modern-day prophet, Savage returns with a vengeance in this lightning rod of a book, speaking for all Americans who are fed up and ticked off at the corrosive influence of today's "psycho liberals"?the Democrats, as he calls them. "They're speeding down the pathway of good intentions. Their mantra: Celebrate perversity, embrace ultra-tolerance, pay rape-a-nations (so-called reparations), support affirmative racism, and provide government subsidies for every illegal who sneaks across the border. In their haste to push failed socialist ideals, the libs have placed us on a crash course of total destruction." Even while the heated controversy of his New York Times bestseller, *The Savage Nation*, still simmers, Michael Savage raises his weapons of matchless wit and moxie again, this time aiming his sights on the liberal assault on our most cherished institutions and taking a stand for our schools, our faith, our police and armed forces, and, most important, our families. It isn't always pretty. You might even at times become uncomfortable. But as you read on, you'll find these pages always contain the Savage truth. That is how to fight the Enemy Within. Filled with riotous rage and blistering humor, this book inspires as it enflames, encouraging Americans to reclaim our country, our government, our national integrity.

.com Popular radio host Michael Savage returns to print with another attack on the forces of liberalism that he believes are tearing America apart. Using the same brash, abrasive style in his writing that has become a trademark of his radio show, he writes that "the Left operates specifically to undermine God, country, family, and the military" and that liberalism is "either treason or insanity" or "a mental disorder." He also takes on illegal immigration, the state of health care in the U.S., the "Hollywood Idiots," and the decline of schools and morality in general, all of which he blames on Liberals. Savage also drops bombshells such as: "Federal courts and judges in America today are to be more feared than al-Qaida," and Ruth Bader Ginsberg's appointment to the Supreme Court is "akin to appointing the general counsel of the Ku Klux Klan to the bench." Statements as bombastic as these deserve to be backed up with substance and well-thought out arguments, yet Savage offers little more than an anecdote or two before moving on to the next rant. This is not to say he doesn't make some good points or highlight blatant abuses by government, questionable suits brought by the ACLU, or morally bankrupt product coming out of Hollywood, but one can't help noticing that several shades of gray have been left out of his black-and-white arguments. Due to this lack of hard facts and background, Savage's book is not particularly convincing. Still, Savage does consistently challenge readers with controversial opinions and conclusions, so it would be a shame for potential readers to dismiss his book simply on ideological grounds alone. And if he really sets your blood boiling, you can always call him up on his show and take him to task. -- Shawn CarkonenFrom Publishers WeeklyAccording to the conservative shock jock, host of the syndicated radio show *Savage Nation* (and author of the bestselling book of the same title), America's greatest threat comes not from terrorists or foreign nations, but from liberals. In the outrageous, controversial style that made him a hit on syndicated radio-and cost him his short-lived TV show on MSNBC-this wide-ranging screed covers Savage's strident views on everything from the courts to the military, the media, universal health care, religion, public education and what Savage sees as the decline of American morality. In sweeping, purposely dramatic prose, he accuses "mad dog" leftists of a conspiracy "to undermine God, country, family, and the military." Select examples are given of what he sees as democracy run amok, such as one teacher who reportedly gave extra credit to her class for writing antiwar letters to the White House and refused extra credit to a student who wrote a letter supporting the war. Heavy on bluster and light on facts, however, Savage's attempts to stretch such anecdotes into a portrait of national decay appear specious at best, as do many other colorful claims, such as that the Democratic Party views "the Judeo-Christian faith as public enemy number one." On the radio, Savage's tough talk is designed to jolt listeners. Fixed in print, his words are even more startling, resonating with hate and intolerance. As for his now infamous firing from MSNBC for telling a gay caller to "get AIDS and die," Savage offers a weak defense, suggesting that he was the victim of a conspiracy.
