Israeli/Palestinian conflict By Elias Davidsson Pappé is a courageous Israeli academic who refuses to close his eyes on the crimes committed by "his people" towards the Palestinian people. His account on the Palestinian tragedy (Nakba) of 1947/8, is a must for those seeking to understand the history of the Palestinian/Israel conflict. His book complements the seminal and earlier study by Benny Morris on the Palestinian refugees.

Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

From Publishers Weekly Starred . In his latest work, renowned Israeli author and academic Pappé (*A History of Modern Palestine*) does not mince words, doing Jimmy Carter one better (or worse, depending on one's point of view) by accusing Israel of ethnic cleansing and crimes against humanity beginning in the 1948 war for independence, and continuing through the present. Focusing primarily on Plan D (Dalet, in Hebrew), conceived on March 10, 1948, Pappé demonstrates how ethnic cleansing was not a circumstance of war, but rather a deliberate goal of combat for early Israeli military units led by David Ben-Gurion, whom Pappé labels the "architect of ethnic cleansing." The forced expulsion of 800,000 Palestinians between 1948-49, Pappé argues, was part of a long-standing Zionist plan to manufacture an ethnically pure Jewish state. Framing his argument with accepted international and UN definitions of ethnic cleansing, Pappé follows with an excruciatingly detailed account of Israeli military involvement in the demolition and depopulation of hundreds of villages, and the expulsion of hundreds of thousands of Arab inhabitants. An accessible, learned resource, this volume provides important inroads into the historical antecedents of today's conflict, but its conclusions will not be easy for everyone to stomach: Pappé argues that the ethnic cleansing of Palestine continues today, and calls for the unconditional return of all Palestinian refugees and an end to the Israeli occupation. Without question, Pappé's account will provoke ire from many readers; importantly, it will spark discussion as well. Copyright Reed Business Information, a division of Reed Elsevier Inc. His book is rewarding in other ways. It has at times an elegiac, even sentimental, character, recalling the lost, obliterated life of the Palestinian Arabs and imagining or regretting what Pappé believes could have been a better land of Palestine. -- Times Literary Supplement, 04/26/2007 About the Author Ilan Pappé holds the Chair in History at the University of Exeter and is Academic Director of the Research Institute for Peace at Givat Haviva and Chair of the Emil Touma Institute for Palestinian Studies, Haifa. He is also author of the bestselling *A History of Modern Palestine* (Cambridge), *The Modern Middle East* (Routledge), and *The Israel/Palestine Question* (Routledge).
