A rogues' galleryBy ct readerThis is a compendium of Nazis (`Hitler;' `Practitioners' -Gring, Goebbels, Heydrich, Himmler, Bormann, Rhm; `Functionaries' -von Papen, Rosenberg, Ribbentrop, Hess, Speer, Frank, von Shirach, General, Professor, Wife, H) published in 1970. It's well worth reading, but not up to the author's subsequent excellent work (`Hitler' 1973, `Speer' 2001).Most problematic in literary terms is discontinuous menagerie of disjointed, vain, and often incompetent rivals. It's not an easy read. On reflection, that's accurately indicative of the compartmentalized ruthless jealousy under the fhrrerprizip. Readers seeking cohesiveness between principal figures beware: there was little or none.Taken individually, this is an interesting and enlightening analysis of villains (a dictionary of blackguards). Nothing more.Also recommended:GM Gilbert's `Nremberg Diary'JK Galbraith's `Name-Dropping'

In these searing profiles the author dissects the lives of fifteen infamous Nazisincluding Hermann Gring, Joseph Goebbels, Heinrich Himmler, Martin Bormann, Ernst Rhm, Hans Frank, Rudolph Hss, Albert Speer, and Hitler himself. He also analyzes the archetypal roles of the officer corps, intellectuals, and women. This work provides fresh perspectives into how dysfunctional psyches, personal ambitions, and ruthless rivalries impacted the creation and evolution of Hitler's Third Reich.
