George I'm still in the midst of reading this; for me, it's not a page turner, but I like the overall message of where we are in our awareness of the human evolution; Anodea is hopeful about our continuing to awaken with our power for love, rather than love for power. 1 of 1 people found the following review helpful. We Are All Responsible By Customer The author writes with passion covering where human beings have taken this beautiful planet and where it may go if a higher consciousness is developed and accepted by all. The world and especially the US, is in an adolescent stage and transition can be made. 0 of 0 people found the following review helpful. Positing that modern society is an adolescent culture, driven by greed and power and lying on the cusp of an era of spiritual growth and shifting values, this book explores mythic themes in various historical eras to explain the past, present, and future of the human experience. It suggests that the world is facing a rite of passage into adulthood and that a time of cooperation, stabilization, and sharing is approaching. With an original theory of history based on developmental psychology, including an analysis of masculine and feminine archetypes, this thoughtful guide weaves the narratives of human history and individuals' experiences into a path of enlightenment and a way to catalyze social change.
