Pachecoi think this book is a under-rated. if you want to know some basic about buddhism, i would recommend this book. full of stories and wise conversations. the part that interests me the most is how much similar the narrations between religions, the stories are so similar. i won't spoil much of the book, you can read it yourself.

An Unabridged, Unaltered Edition of "The Gospel of Buddha Compiled from Ancient Records," To Include Over Fifty Original Illustrations, Comprehensive Index, A Table of Reference (indicating the main sources of various

chapters and points out the parallelisms with Western thought, especially in the Christian Gospels) followed by their abbreviations, Glossary of Names and Terms, Pronunciation Table, with Remarks from the Illustrator At Book's End.

From Library Journal First published in 1894, this is the book that first introduced many Westerners to Buddhism; it remains a useful overview of the life and teachings of the Buddha. Carus, an independent philosopher who studied and published on Eastern and Western philosophy, was instrumental in raising Western awareness of Buddhism at the turn of the century. Copyright 1999 Reed Business Information, Inc. From the Back Cover Carus called himself "an atheist who loved God," and he loved the Buddha too, as this classic 1894 introduction to the joys and wisdom of Buddhism continues to testify more than a century later. A bestseller in its time and still a comfort to spiritual seekers and a handy reference for students of mythology and religion, this is a collection of excerpts from the foundational texts of Buddhism arranged, Bible style, in chapter and verse. Carus explains, in his introduction, that some sections are literal copies of translations of ancient texts; other sections are rendered more freely in modern language; but it is all in aid bringing the Buddha's anti-negativism doctrine to contemporary readers, and to world torn by strife and anger and desperate for relief. Carus' mission continues to be welcome today. About the Author American philosopher and theologian PAUL CARUS (1852-1919) also wrote *The Religion of Science* (1893), *The History of the Devil* (1900), and *God* (1908).
