**Nancy F. Cott : The Grounding of Modern Feminism** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Grounding of Modern Feminism:

0 of 1 people found the following review helpful. A Foundational Book in the FieldBy THDWhile this book can be dry, it remains foundational to the study of modern American feminism.0 of 3 people found the following review helpful. It was okBy The Sassy CountessNot very great, but not horrible. It is one of those books that I forgot as soon

as I finished it. In other words, at least for me, it was not memorable. 11 of 18 people found the following review helpful. the in-between years  
By Beth A. Emmerling  
This book aptly describes the problems that arose within the women's movement post-suffrage and pre-second wave. The conflicts over which issues should be stressed, and the inevitable collapse of the movement once they reached the goal that they thought would bring them equality on many levels - and the impact that the realization that the vote was not the panacea for all ills, make this book a must read for those interested in twentieth-century women's history. Should be on every feminist and/or historians bookshelf.

"The time has come to define feminism; it is no longer possible to ignore it." The Century Magazine, 1914

From the Back Cover  
In this landmark addition to scholarship, Nancy F. Cott, author of the 'The Bonds of Womanhood,' offers a new interpretation of feminism in the United States during the early decades of this century--a period traditionally viewed as one in which women won the right to vote and then lost interest in feminist issues.
