Edward J. Thomas : The History Of Buddhist Thought before purchasing it in order to gage whether or not it would be worth my time, and all praised The History Of Buddhist Thought:

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

About the Author Consulting Description Edward J. Thomas is founder and president of Dimension 2000, a

professional development organization that works with teachers of mathematics. He has over 30 years of experience as a mathematics teacher at the middle school, high school, district, and undergraduate levels. Edward has authored several articles and books on mathematics instruction and has developed a number of educational games for the mathematics classroom. He was the co-chair of the Northwest Georgia P-16 Council, an initiative designed to improve teacher quality and student achievement from pre-school through the undergraduate level. Edward is an experienced mathematics consultant who has conducted workshops for schools throughout the country. He has also presented at state, regional, and national conferences for the National Council of Teachers of Mathematics (NCTM), Georgia Council of Teachers of Mathematics (GCTM), Southern Regional Education Board (SREB), Georgia Association of Educational Leaders (GAEL), Georgia Middle School Association (GMSA), and the Association for Supervision and Curriculum Development (ASCD).
