whether or not it would be worth my time, and all praised *The Holocaust and Its Religious Impact: A Critical Assessment and Annotated Bibliography* (Bibliographies and Indexes in Religious Studies):

This annotated bibliography provides a comprehensive survey of writings about the Holocaust. The authors present an overview of topics including Christian anti-Judaism, anti-Semitism, the moral and religious response to the Nazi persecution and genocide of the Jews, and post-World War II responses to the Holocaust as they have appeared in the thousands of books and articles published on the Holocaust. The bibliography is divided into four topics with introductory comments that frame the theories put forward in the materials cited. A broad array of past and recent scholarship from a variety of venues and points of view are represented.
