Explanations and motivations behind them could vary, as always in political and social matters, but general conclusions are unshakable - allies and others did not really entertained any efforts to save Jews in WWII time even when it was absolutely possible and cheap but very often instead indirectly collaborated with Nazis. All that period is a darkest and lowest point in human morale, which once more emphasizes how fragile our civilization is, even in "most advanced nations".

Careful review of the Holocaust material published so far still leaves scholars and the public wondering: How could this tragedy ever have happened?; How was such a world-wide collapse of values possible?; Why was the Holocaust so terribly successful? These crucial questions are finally answered in 'The Holocaust Conspiracy'. By combining existing research with previously unknown findings, Dr Perl draws the inescapable conclusion that it was not apathetic inaction of the world's powers that made the Holocaust and the Final Solution so tragically ineffective. Using extensive documentation, he convincingly proves it was deliberate action on the part of many nations that kept millions prisoner in a hostile Europe. These deliberate actions are conclusively shown to be the result of conspiracies within individual governments and between governments. Here, also, a comprehensive analysis of the Holocaust policies of powers that until now have received relatively little attention or blame: Switzerland, The Soviet Union, Latin America, and the International Red Cross. "The Holocaust Conspiracy" sheds shocking new light on the plots and discreet actions of world powers to effectively support the Nazi genocide programs. You will alter your perceptions of many nations after reading this work.
