These books are full of pics and descriptions. There's a spin .. a little towards the left.. but like most of these types of humanity type courses you're going to get that anyway.0 of 0 people found the following review helpful. Just about the same as previous editions....By Heidi HillI purchased this and the 2010 edition; there are virtually no changes, so I'm returning the over-priced 2010 edition....\$5-ish for this one, or \$125-ish for the new one? I'm just fine with the \$5 book.

Designed for Introduction to Humanities courses, Gloria Fiero's *The Humanistic Tradition* is, "the only completely successful integration of non-western and western cultures, achieved by the appropriate placement of non-western elements at points in the text where they influence and complement their western counterparts. But there is more: *The Humanistic Tradition* also addresses contemporary issues of gender and race with sensitivity and appropriateness, using historical examples from the past as templates for the present.--Laurinda S.
