Must read for the Alt Right and BeyondBy D. NickelsStunning work, massive scope.Forget Cultural Marxism. Marx is just a little dot in the full image.The book is a rewrite of standard

(Whig) history starting at the foot of the cross, up through modern American politics and NeoConservatism, from the Catholic Perspective. This book ties together the work of Josephus, Voltaire, Pat Buchanan (Death of the West) and Paul Gottfried (Multiculturalism) into one neat ideological thread explaining much of European history. The messianic spirit of the modern leftist cultural attacks is traced to its root as the rejection of Christ (Logos). The bizarre civil war of the Jews as described by Josephus (fighting against the Romans) is carried forward and the good cop/bad cop routine of the radical/pseudo-conservative Jewish activists is exposed. The book also explains in detail (from the origins) the WASP/Protestant tendency to support the insane cultural agenda of the Jewish revolutionaries by describing the philo-Judaic theology and origins of these movements. The section on Bolshevism is devastating to the standard canard that associating Jews and Bolshevism is a no-no. This book is a must for every counter revolutionary, although, by the end of the journey you are likely to be a Catholic counter revolutionary. 5 of 6 people found the following review helpful. Five Stars By joanie Really detailed history.

Jews for Jesus versus Jews against Jesus; Christians versus Jews; Christians versus Judaizers. This book is the story of such contests played out over 2000 turbulent years. Dr. E. Michael Jones provides a breathtaking and controversial tour of history from the Gospels to Julian the Apostate to the Hussites to the French Revolution to Neoconservatism and the End of History. A Must Read.
